MIND IT! QUIZ NIGHT RUN-SHEET

v1.69 · build 180 · one page
On the night, on the real laptop, tablet, phones and TV

Date: Theme: Teams:

Tick each step. A NEW tag marks what builds 176–177 added. The full feature-by-feature rehearsal was build 160's two-page checklist; the automatic checks on the build computer cover the rest.

BEFORE GUESTS ARRIVE · about 45 minutes before

1	**Update**	Laptop: main menu → **Update App** (build 180). Tablet: **Settings** → **App Update**. Laptop, tablet, phones and TV on the same Wi-Fi.	☐
2	**Presentation**	Laptop **Setup** → **5 · Presentation**: the theme, **Theme Sounds**, **Large Text On TV** for a big room. Then **Open Audience View** on the TV (or **Present on this screen**) and **Presentation Check**.	☐
3	**Sound check** NEW	Same section → **Sound** → 🔊 **Sound Check**: six sounds in turn (right, wrong, pass, time's up, a Rewind It! square, the winner). Set the TV's volume so each is clear, not too loud.	☐
4	**TV lobby**	**Setup** → TV lobby on, **Welcome message on the TV** and **Start time (optional)**: the TV shows the welcome, a countdown and each team as its phone joins.	☐
5	**Tablet** NEW	Tablet → **Connect To Laptop**. It syncs by itself: the laptop says ⟳ **Synced with …**, and Player Profiles shows the same number of games on both.	☐
6	**Backup host**	With the Galaxy Tab app connected as the remote it keeps a copy of the game. If the laptop stops, the tablet offers **Take over on this tablet**: one tap and the quiz carries on there.	☐
7	**Phones**	The TV shows the join QR; each phone scans it and types its team code. Then 📶 **Check Connections** → **Test All Connections**: all Connected.	☐

DURING THE QUIZ

8	**Time's Up** NEW	Timer card ⏰ **Time's Up** = the clock ran out: "passing to …" shows for 2 s on the laptop and the tablet, then the next team plays (no points lost). CORRECT / WRONG in those 2 s still score the first team. Phone Buzzer Mode: a team that buzzed keeps its turn; nobody buzzed → nothing passes (Reopen Buzzers or No One Answered).	☐
9	**Answered in time?** NEW	The question card says ⏰ **… time ran out — answered in time after all?** → **Score …** → Correct or Wrong for that team (no pass-on bonus for its own pass).	☐
10	**Present mode** NEW	The toolbar shows when the mouse moves — one slim line at the very bottom — and hides when it's still. **Esc** leaves Present mode.	☐
11	**Intermission**	⋯ → ☕ **Intermission** → 2 min: the TV counts down with the standings. Resume when everyone is back.	☐
12	**Tablet blank?** NEW	After 8 s it shows a card: **Try Again** · **Back to the Start** · **Copy Details**. Its errors also reach the laptop: **Setup** → **6 · Advanced** → **Diagnostics** → **Tablet Errors** → 📋 **Copy Error Details** — send me what it copies.	☐

END OF THE NIGHT

13	**Finish**	Mastermind It!: mark ✓ / × → ▶ **Reveal all** → standings → awards → podium → 😺 The Rascala! → 🏁 **End Quiz & save**.	☐
14	**Sync, back up**	The tablet gets the night's game by itself (the laptop says ⟳ Synced). Then ⋯ → 💾 **Backups & Restore** → **Back Up Now**.	☐
15	**Phones**	Each team's phone shows its night as a picture: **Save picture** (or **Share**).	☐

If something doesn't look right: note the step number, which device, what you did and what happened (a photo helps), plus the laptop's 📋 Copy Error Details, and send them to me.
