B · SCORING CHEAT SHEET

Situation	Rule	Example
Correct	+ value (+ pass-on bonus) (+ speed bonus)	400 question → **+400**
Wrong	− value; question → next team (fresh clock). Never earns a bonus.	400 → **−400**; next team right → +400
Pass	0; question → next team	—
Pass-on bonus	+25% of value **per explicit pass** before the right answer (or fixed 100/pass)	600 passed twice → 600 + 300 = **+900**
Speed bonus	+50% of the round's **lowest** value · picking team only · right within 10 s (15 s in Online Mode) · not after pass/wrong, not Blind It!, not Triple Gamble	Rd 1 (200–1,000): 200 in 4 s → **+300**. Rd 2: bonus 200
Blind It! question	Bet min = value, max = higher of score, 1,000, value · ± wager · no pass/bonus	Score 0, tile 400 → bet 400–1,000
🤠 **Rewind It! question**	If chosen instead of Blind It!: spin 1×–5× · right + value × N · wrong − value × N, at most 3× · no pass · no chips that game	600 on 5× → **+3,000** / **−1,800**
Triple Gamble	± 3× value; on a Blind It! a fixed ± 6× value · no pass	400 → **±1,200**; Blind It! 1,000 → **±6,000**
Phoenix	+ max(value, min(2×value + 20% of gap, gap)) · wrong = 0	1,200 tile, 3,000 behind → **+3,000** (level)
Bottoms Up	Wrong → ✓ Finished = 0 · ✕ Not finished = − value	800 wrong, drink finished → **0**
Negative score	Allowed. Below 0 = sits out Mastermind It!	−600 can still play rounds
Mastermind It!	Eligible ≥ 0 · bet 0 to score · right + bet · wrong − bet · wrong-no-penalty 0	2,400 bets 1,000 → **3,400** / 1,400

Values (auto): 1–3 rounds start 200 / 400 / 600; 4 rounds 250 / 500 / 750 / 1,000. Row k = start × k. Speed bonus = half the start value.
